Resume of the Work Accomplished
by the Extra Session.

DINGLEY TARIFF BILL NOW LAW

It Passed the Senate by a Vote of 40 to 30.—Speaker Reed Announces His Committee and Both Houses Adjourn Without Day.—President's Monetary Message Not Acted Upon.

WASHINGTON, July 26.—The extraordinary session of congress which has just closed was called by President McKinley two days after he took the oath of office on the steps of the capitol to meet March 15. The special message transmitted by him to both houses on the opening day was brief. It explained the deficiencies in the revenues, reviewed the bond issues of the last administration and urged congress promptly to correct the then existing condition by passing a tariff bill that would supply ample revenues for the support of the government and the liquidation of the public debt. No other subject of legislation was mentioned.

Three days after the session opened the tariff bill was reported to the house by the ways and means committee and 13 days later, March 31, 1897 it passed the house. It went to the senate and exactly two months later, July 7, it passed that body with 872 amendments. The bill then went to conference where, after a 10-day struggle, a complete agreement was reached by which the senate receded from 118 amendments and the house from 511. The others, 243 in number, were compromised.

The conference report was adopted by the house July 19 and by the senate July 24. The bill was signed by the president the same day.

Congress did not devote its attention entirely to the tariff. The four appropriation bills which failed on March 4, the sundry civil, the agricultural, the Indian and the general deficiency bills were disposed of.

The senate not being confined as to the scope of its legislation dealt with a number of important subjects both in and out of executive session. One of these, which attracted world wide attention, was the general arbitration treaty negotiated by President Cleveland with Great Britain. After exhaustive consideration, despite the great pressure brought to bear upon the senate by religious and commercial bodies throughout the country, the senate rejected the treaty.

The Hawaiian treaty of annexation, negotiated by President McKinley, was still unacted upon when congress adjourned.

In open session after much debate the senate passed the Cuban belligerency resolution, a bankruptcy bill, including both voluntary and involuntary features, and the "free homes" bill. But none of these important questions received consideration in the house. A number of minor bills and joint resolutions, which managed to escape objection from members, were passed.

TARIFF BILL.

It Passed the Senate by a Vote of Forty to Thirty.

WASHINGTON, July 26.—The senate carried out the Republican programme Saturday to a dot. The Democratic senators occupied all the time up to the hour of taking the vote, save a few minutes, when Senator Burrows took the floor to reply to some statements, which he characterized as false. Promptly at 3 o'clock the presiding officer announced the hour had arrived for taking the vote and the clerk began to call the roll, and the conference report was adopted by a vote of 40 yeas to 30 nays. The bill was hurried over to the house, Speaker Reed signed it, returned it to the senate where Vice President Hobart attached his signature and it was then taken to the president, who signed the bill, making it a law just one hour after its passage.

The following is the vote:
Yeas—Aldrich, Allison, Baker, Burrows, Carter, Clark, Davis, Deboe, Elkins, Fairbanks, Foraker, Frye, Gallinger, Gear, Hale, Hansbrough, Hawley, Hoar, Jones (Nev.), Lodge, McBride, McHenry, McMillan, Mason, Morrill, Nelson, Penrose, Perkins, Platt (Conn.), Platt (N. Y.), Pritchard, Proctor, Quay, Sewell, Shoup, Spooner, Stewart, Thurston, Warren, Wetmore—40.
Nays—Bacon, Bate, Berry, Caffery, Chandler, Clay, Cockrell, Daniel, Faulkner, Gorham, Harris, Jones (Ark.), Lindsay, Malloy, Martin, Mills, Mitchell, Morgan, Murphy, Pardo, Pettus, Roach, Smith, Tillman, Turley, Turner, Turpie, Vest, Walcott, White—30.

The following parties were announced, the first for and the latter against the bill: Chandler with Cannon, Cullum with Gray, Wolcott with George, Hanna with Rawlins, Wellington with McLean, Mantle with Kenny, Wilson with Helfield.

NO MONETARY COMMISSION.

President's Currency Message and Subsequent Action by Congress.

WASHINGTON, July 26.—On Saturday, immediately after the passage of the tariff bill, President McKinley sent to Congress a message on the currency question, in which he referred to the subject of establishing the currency and banking system on a better basis as one of very great importance. In the course of the message he said: "The soundness of our currency is nowhere questioned. No loss can come to its holders. It is the system which should be simplified and strengthened. Keeping our money just as good as it is now with less expense to the government and our people. The sentiment of the country is strongly in favor of early action by congress in this direction, to revise our currency laws and remove them from partisan contention. The president made no other recommendation than the appointment of a monetary commission, along the lines suggested by the Indianapolis monetary conference, 'whose duty it shall be to make recommendations of whatever changes in our present banking and currency laws as may be found necessary and expedient, and to report their conclusions on or before' "

Sixty Men Sworn In to Guard His
Mines From a Raid.

THIRD MARCH ON CANONSBURG.

Arbitration Commissioners Expect to Accomplish Something Today.—Debs Speaks at Fairmont and All the Mines Are Guarded.—Conference of Labor Leaders at Wheeling Tomorrow.

PITTSBURG, July 26.—Sixty deputy sheriffs have been put on waiting orders. They are to be sent to the mines of the New York and Cleveland Gas Coal company at the request of DeArmitt, in anticipation of a raid. But as the strikers' officials declare that the contemplated march has been abandoned, no conflict is expected. Another march on Canonsburg has begun. A big meeting of the miners was held at Reising yesterday afternoon. They were informed that the Allison mine intended to resume work, and in a very short time it was decided to make another tramp across the country and reinforce the 100 strikers that have been on guard.

There was a great hurrying to and fro in all the mining settlements in that section before the sun went down. Every man decided to take two days' rations along. Women, as has been the case during the present strike, were among the most active agitators. They advised their husbands and sweethearts to take another irksome tramp across the country in order that their conditions might be bettered.

Last night more than 500 determined men from Cecil, Reising and Bridgeville were mobilized at Bridgeville and started on the march, with the American flag at their head. Nearly all the men carried dinner pails, and they looked like a regiment of toilers going to work.

Nothing was done in the way of arbitration yesterday. The commissioners rested, and expect to accomplish considerable during today. They will endeavor to enlist more of the river operators, and have every reason to hope that they will be successful.

DEBS AT FAIRMONT.

Today Will Settle the Strike For That District.
FAIRMONT, W. Va., July 26.—Debs held three good meetings at the various mines yesterday and is confident that the men will be gotten out although he will not say when he expected the move. The general impression is that if the break is not made today it will not be made at all. It is hard to tell what the men will do. The operators have succeeded in keeping many of them from the meetings and it looks as easy to keep them in the mines.

All the mines are guarded by deputies and no men are allowed on the company's grounds. A body of the organized men stayed at each of the different mines last night and a herculean effort is being made to induce the men not to go to work. Rumors of all kinds are afloat but no trouble is expected. Today will certainly settle the strike one way or the other, so far as this region is concerned.

KANSAS MINERS.

Efforts Being Made to Get Them Out by Illinois Emisaries.

PITTSBURG, Kan., July 26.—The mine operators claim they have unmistakable evidence that Illinois miners sent about 14 delegates here to agitate a strike in all of the important mines. The dele-

gates come quietly and dealt with the delegates selected by the several mines to the convention only.

Operators say that it will make no difference whether Kansas with only 10,000 miners goes out or stays in, but the miners see in the extra work and storing of coal that is going on a desire on the part of the operators to fortify themselves against a strike. They are also suspicious that coal from Kansas mines is to be smuggled into strike territory.

WHEELING CONFERENCE.

WHEELING, July 26.—E. V. Debs will be the first of the labor leaders arriving in Wheeling to attend the conference of executive officers of the various labor organizations of the country called by President Ratchford to consider ways and means to bring success to the coal strike. Advice received by local labor leaders are to the effect that nearly all of the executive officials of national labor organizations will come to Wheeling for the conference. It is claimed that the result of the conference will be the calling upon the firemen, brakemen and conductors to refuse to haul trains carrying West Virginia coal.

SIXTY CENTS OFFERED AT SHELBURN.

SHELBURN, Ind., July 26.—The Shelburn Coal company posted the following notice yesterday: "This company is prepared to pay the 60-cent scale. All miners who are willing to accept the price are requested to be in their places Monday.—Those who will not accept are requested to take their tools out."

BLUNDER IN THE TARIFF BILL.

SAN FRANCISCO, July 26.—The custom officials here have discovered a blunder in the new tariff bill which may be troublesome to importers. Section 261 of the schedule provides that the duty on "Apples, peaches, currants, etc.," shall be 25 cents a bushel. But section 263 provides that the duty on a number of fruits, including "currants and other" shall be 2 cents a pound.

There are bandits nowadays as well as in the days of old. Business men have to meet what are known as business bandits. They may not commit violence with knife and pistol, but they resort to all manner of dishonest business methods, and the honest business man must be brave, strong and steady if he would meet and overcome them. The modern business man needs above all other qualifications—good health. Without good health, he may be naturally shrewd, bright and capable, but he will eventually fail. It takes a keen brain and steady nerves to be successful. Impure blood will befog the brightest brain and shake the steadiest nerves.

The greatest known blood-maker and purifier is Dr. Pierce's Golden Medical Discovery. It corrects all disorders of the digestion, tones the liver, makes the appetite keen and assimilation perfect. Consequently the blood is plentifully supplied with the elements of nutrition and the body is properly nourished. It cures 98 per cent. of all cases of consumption. All good druggists sell it.

H. Gaddis, Esq., of No. 348 S. J. Street, Tacoma, Washington, writes: "I was taken ill in February, 1892, with headache and pain in my back. I called a doctor and he came three times. He said I was bilious, but I kept getting worse. I took a cough so that I could only sleep when propped up in bed. My lungs hurt me and I got so poor that I was just skin and bone. I thought I was going to die. I tried a bottle of Dr. Pierce's Golden Medical Discovery and it did me so much good that I tried another one and it made me strong and well. It saved my life."

CHESTER, Pa., July 26.—James B. Campbell, ex-city clerk of Chester was killed by a most peculiar accident. He was one of a party standing on the government pier awaiting the Wilmington, Del., passenger steamboat. A steam tug which was lying at the pier with a hawser attached to a post began to move and the hawser becoming taut, slipped over the top of the post and whirling rapidly through the air caught Campbell under the chin. The rope encircled itself tightly about his neck, lifted the unfortunate man 10 feet in the air and then dropped him to the pier. His neck was broken and he was found to be dead when the horror-stricken spectators ran to his assistance.

TOOK FRENCH LEAVE.

Shaw was implicated with Gertrude Fisher, his sweetheart, in the theft of a horse and buggy from a relative of the girl several months ago.

Following the arrest and prosecution of the two they were married in jail. The governor pardoned Gertrude, while her husband was sent to the reformatory. The captive said that he was anxious to see his wife and his mother and was found at their home when arrested.

POSTMASTER'S SHORTAGE.

Claims It Occurred While He Was Nursing a Sick Wife and Child.

BEEBA, Ky., July 26.—W. S. Young, former postmaster here, has been tried before United States Commissioner Cardwell at Winchester for embezzlement and held to \$500 bond to answer in the United States court. The accused admitted a shortage of \$600 which occurred, he claims, during his absence from the postoffice nursing a sick wife. Evidence showed that as soon as the shortage was discovered Young notified his bondsmen and resigned, at the same time making them safe. Young was taken to the Louisville jail. Friends believe that on account of his family misfortunes, his wife and child having died recently, leniency will be extended him.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

HOW TO EAT THESE HOT DAYS.

Healthful Dishes that can be Prepared With Little Fire.

"During the hot months," writes Mrs. S. T. Rorer in the August Ladies' Home Journal, "the diet should consist largely of dainty, cold, lean meat, green succulent vegetables and fruits. It is a popular fallacy that the free use of sub-acid fruits during hot weather causes disturbances of the bowels. No diet is more healthful than ripe fruit provided it is properly masticated and swallowed before or after bread and butter, but never with it.

"The lighter wheat preparations, such as farina, wheatlet and glutena, should be substituted for the heat-giving oatmeal for breakfast. Cook enough one morning to last two, as they are just as palatable cold as they are hot. While fried food may seem a little out of place in the warm weather there are certain light dishes that may be utilized for breakfast. Cornmeal or hominy croquettes, or even rice croquettes may be made the day before and simply fried at serving time. Squash and cucumbers may be dipped and fried. In the chafing dish one may have chipped beef creamed or fricassed barbecued beef, cold mutton warmed in a little tomato sauce, and dishes of eggs, such as omelets, scrambled eggs, creamed eggs or poached eggs.

"Fruit should be served in a flat dish, with, if the weather is particularly hot, a little chopped ice sprinkled over it. Fruit that is very acid should not be served too cold. Powdered sugar and cream should accompany the fruit course. In the place of chops or steaks we may have eggplant, broiled or fried tomatoes, panned tomatoes, a dainty omelet with peas, omelet with asparagus tips, or with parsley, following the fruit. Corn oysters and corn fritters may also take the place of meat. Coffee, tea, chocolate and milk are, of course, in summer as in winter, the breakfast beverages."

DINGLEY TARIFF BILL NOW LAW

It Passed the Senate by a Vote of 40 to 30—Speaker Reed Announces His Committee and Both Houses Adjourn Without Day—President's Monetary Message Not Acted Upon.

WASHINGTON, July 26.—The extraordinary session of congress which has just closed was called by President McKinley two days after he took the oath of office on the steps of the capitol to meet March 15. The special message transmitted by him to both houses on the opening day was brief. It explained the deficiencies in the revenues, reviewed the bond issues of the last administration and urged congress promptly to correct the then existing condition by passing a tariff bill that would supply ample revenues for the support of the government and the liquidation of the public debt. No other subject of legislation was mentioned.

Three days after the session opened the tariff bill was reported to the house by the ways and means committee and 13 days later, March 31, 1897 it passed the house. It went to the senate and exactly two months later, July 7, it passed that body with 872 amendments. The bill then went to conference where, after a 10-day struggle, a complete agreement was reached by which the senate receded from 118 amendments and the house from 511. The others, 248 in number, were compromised.

The conference report was adopted by the house July 19 and by the senate July 24. The bill was signed by the president the same day.

Congress did not devote its attention entirely to the tariff. The four appropriation bills which failed on March 4, the sundry civil, the agricultural, the Indian and the general deficiency bills were disposed of.

The senate not being confined as to the scope of its legislation dealt with a number of important subjects both in and out of executive session. One of these, which attracted world wide attention, was the general arbitration treaty negotiated by President Cleveland with Great Britain. After exhaustive consideration, despite the great pressure brought to bear upon the senate by religious and commercial bodies throughout the country, the senate rejected the treaty.

The Hawaiian treaty of annexation, negotiated by President McKinley, was still unacted upon when congress adjourned.

In open session after much debate the senate passed the Cuban belligerency resolution, a bankruptcy bill, including both voluntary and involuntary features, and the "free homes" bill. But none of these important questions received consideration in the house. A number of minor bills and joint resolutions, which managed to escape objection from members, were passed.

TARIFF BILL.

It Passed the Senate by a Vote of Forty to Thirty.

WASHINGTON, July 26.—The senate carried out the Republican programme Saturday to a dot. The Democratic senators occupied all the time up to the hour of taking the vote, save a few minutes, when Senator Burrows took the floor to reply to some statements, which he characterized as false. Promptly at 3 o'clock the presiding officer announced the hour had arrived for taking the vote and the clerk began to call the roll, and the conference report was adopted by a vote of 40 to 30. The bill was hurried over to the house. Speaker Reed signed it, returned it to the senate where Vice President Hobart attached his signature and it was then taken to the president, who signed the bill, making it a law just one hour and six minutes after the beginning of the follic. The following is the vote:

Yeas—Aldrich, Allison, Baker, Burrows, Carter, Clark, Davis, Deboe, Elkins, Fairbank, Foraker, Frye, Gallinger, Gear, Hale, Hansbrough, Hawley, Hoar, Jones, (Nev.), Lodge, McBride, McHenry, Penrose, Perkins, Platt (Conn.), Platt (N. Y.), Pritchard, Proctor, Quay, Sewall, Shoup, Spooner, Stewart, Thurston, Warren, Wetmore—40.

Nays—Bacon, Bates, Berry, Caffery, Chilton, Clay, Cockrell, Daniel, Paulkner, Gorman, Harris, Jones (Ark.), Lindsay, Malloy, Martin, Mills, Mitchell, Morgan, Murphy, Pasco, Pettus, Roach, Smith, Tillman, Turley, Turner, Turpie, Vest, Walthall, White—30.

The following pairs were announced, the first for and the latter against the bill: Chandler with Cannon, Cullen with Gray, Wolcott with George, Hanna with Rawlins, Wellington with McFarlin, Mantle with Kenny, Wilson with Heitfeld.

NO MONETARY COMMISSION.

President's Currency Message and Subsequent Action by Congress.

WASHINGTON, July 26.—On Saturday, immediately after the passage of the tariff bill, President McKinley sent to Congress a message on the currency question, in which he referred to the subject of establishing the currency and banking system on a better basis as one of very great importance. In the course of the message he said: "The soundness of our currency is nowhere questioned. No loss can come to its holders. It is the system which should be simplified and strengthened. Keeping our money just as good as it is now with less expense to the government and our people. The sentiment of the country is strongly in favor of early action by congress in this direction, to revise our currency laws and remove them from partisan contention. The president made no other recommendation than the appointment of a monetary commission, along the lines suggested by the Indianapolis monetary conference, 'whose duty it shall be to make recommendations of whatever changes in our present currency and currency laws as may be found necessary and expedient, and to report their conclusions on or before'."

Nov. 1 next, in order that the same may be transmitted by me to congress for its consideration at the first regular session."

The house very promptly acted upon the advice offered in the message, passing Representative Stone's bill providing for such a commission, but in the senate the proposition to consider the question developed an opposition that led to the speedy abandonment of the subject and adjournment without action.

DEARMITT DEPUTIES

Sixty Men Sworn In to Guard His Mines From a Raid.

THIRD MARCH ON CANONSBURG.

Arbitration Commissioners Expect to Accomplish Something Today—Debs Speaks at Fairmont and All the Mines Are Guarded—Conference of Labor Leaders at Wheeling Tomorrow.

PITTSBURG, July 26.—Sixty deputy sheriffs have been put on waiting orders. They are to be sent to the mines of the New York and Cleveland Gas Coal company at the request of DeArmitt, in anticipation of a raid. But as the strikers' officials declare that the contemplated march has been abandoned, no conflict is expected. Another march on Canonsburg has begun. A big meeting of the miners was held at Reissing yesterday afternoon. They were informed that the Allison mine intended to resume work, and in a very short time it was decided to make another tramp across the country and reinforce the 100 strikers that have been on guard.

There was a great hurrying to and fro in all the mining settlements in that section before the sun went down. Every man decided to take two days' rations along. Women, as has been the case during the present strike, were among the most active agitators. They advised their husbands and sweethearts to take another irksome tramp across the country in order that their conditions might be bettered.

Last night more than 500 determined men from Cecil, Reissing and Bridgeville were mobilized at Bridgeville and started on the march, with the American flag at their head. Nearly all the men carried dinner pails, and they looked like a regiment of toilers going to their work.

Nothing was done in the way of arbitration yesterday. The commissioners rested, and expect to accomplish considerable during today. They will endeavor to enlist more of the river operators, and have every reason to hope that they will be successful.

DEBS AT FAIRMONT.

Today Will Settle the Strike For That District.

FAIRMONT, W. Va., July 26.—Debs held three good meetings at the various mines yesterday and is confident that the men will be gotten out although he will not say when he expected the move. The general impression is that if the break is not made today it will not be made at all. It is hard to tell what the men will do. The operators have succeeded in keeping many of them from the meetings and it looks as easy to keep them in the mines.

All the mines are guarded by deputies and no men are allowed on the company's grounds. A body of the organized men stayed at each of the different mines last night and a herculean effort is being made to induce the men not to go to work. Rumors of all kinds are afloat but no trouble is expected. Today will certainly settle the strike one way or the other, so far as this region is concerned.

KANSAS MINERS.

Efforts Being Made to Get Them Out by Illinois Emigrants.

PITTSBURG, Kan., July 26.—The mine operators claim they have unmistakable evidence that Illinois miners sent about 14 delegates here to agitate a strike in all of the important mines. The delegates come quietly and dealt with the delegates selected by the several mines to the convention only.

Operators say that it will make no difference whether Kansas with only 10,000 miners goes out or stays in, but the miners see in the extra work and storing of coal that is going on a desire on the part of the operators to fortify themselves against a strike. They are also suspicious that coal from Kansas mines is to be smuggled into strike territory.

Wheeling Conference.
WHEELING, July 26.—E. V. Debs will be the first of the labor leaders arriving in Wheeling to attend the conference of executive officers of the various labor organizations of the country called by President Ratchford to consider ways and means to bring success to the coal strike. Advice received by local labor leaders are to the effect that nearly all of the executive officials of national labor organizations will come to Wheeling for tomorrow's conference. It is claimed that the result of the conference will be the calling upon the firemen, brakemen and conductors to refuse to haul trains carrying West Virginia coal.

Sixty Cents Offered at Shelburn.
SHELBY, Ind., July 26.—The Shelburn Coal company posted the following notice yesterday: "This company is prepared to pay the 60-cent scale. All miners who are willing to accept the price are requested to be in their places Monday. Those who will not accept are requested to take their tools out."

Blunder in the Tariff Bill.
SAN FRANCISCO, July 26.—The custom officials here have discovered a blunder in the new tariff bill which may be troublesome to importers. Section 291 of the schedule provides that the duty on "Apples, peaches, currants, etc.," shall be 25 cents a bushel. But section 293 provides that the duty on a number of fruits, including "currants and other" shall be 2 cents a pound.

There are bandits nowadays as well as in the days of old. Business men have to meet what are known as business bandits. They may not commit violence with knife and pistol, but they resort to all manner of dishonest business methods, and strong and steady if he would meet and overcome them. The modern business man needs above all other qualifications—good health and good health, he may be naturally shrewd, bright and capable, but he will eventually fail. It takes a keen brain and steady nerves to be successful. Impure blood will bring the brightest brain and shake the steadiest nerves.

The greatest known blood-maker and purifier is Dr. Pierce's Golden Medical Discovery. It corrects all disorders of the digestion, tones the liver, makes the appetite keen and assimilation perfect. Consequently the blood is plentifully supplied with the elements of nutrition and the body is properly nourished. It cures 95 per cent. of all cases of consumption. All good druggists sell it.

H. Gaddis, Esq., of No. 33 S. J. Street, Tacoma, Washington, writes: "I was taken ill in February, 1902, with headache and pain in my back. I called in a doctor and he came three times. He said I was bilious, but I kept getting worse. I took a cough and I could only sleep when propped up in bed. My lungs hurt me and I got so poor that I was just skin and bone. I thought I was going to die. I tried a bottle of Dr. Pierce's Golden Medical Discovery and it did me so much good that I tried another one and it made me strong and well. I saved my life."

Heart Disease Cured.

When a well known minister after suffering for years with heart disease, is cured, it is not surprising that he should publish the fact for the benefit of others. Rev. J. P. Recently, other afflictions came upon me. There was humming, painful sensations on top and back of my head. Fifteen minutes reading would make me almost wild; there were pulling and drawing sensations in my legs all the time, so that I could not sit still. In this condition I began taking Dr. Miles' Restorative. Its effect was simply wonderful. I heartily commend your remedies." John P. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John P. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

HOW TO EAT THESE HOT DAYS.

Healthful Dishes that can be Prepared With Little Fire.

"During the hot months," writes Mrs. S. T. Rorer in the August Ladies' Home Journal, "the diet should consist largely of dainty, cold, lean meat, green succulent vegetables and fruits. It is a popular fallacy that the free use of sub-acid fruits during hot weather causes disturbances of the bowels. No diet is more healthful than ripe fruit provided it is properly masticated and swallowed before or after bread and butter, but never with it.

"The lighter wheat preparations, such as farina, wheat and gluten, should be substituted for the heat-giving oatmeal for breakfast. Cook enough one morning to last two, as they are just as palatable cold as they are hot. While fried food may seem a little out of place in the warm weather there are certain light dishes that may be utilized for breakfast. Cornmeal or hominy croquettes, or even rice croquettes may be made the day before and simply fried at serving time. Squash and cucumbers may be dipped and fried. In the chafing dish one may have chipped beef, creamed or fricasseed barbecued beef, cold mutton warmed in a little tomato sauce, and dishes of eggs, such as omelets, scrambled eggs, creamed eggs or poached eggs.

"Fruit should be served in a flat dish, with, if the weather is particularly hot, a little chopped ice sprinkled over it. Fruit that is very acid should not be served too cold. Powdered sugar and cream should accompany the fruit course. In the place of chops or steaks we may have eggplant, broiled or fried tomatoes, pan-fried tomatoes, a dainty omelet with peas, omelet with asparagus tips, or with parsley, following the fruit. Corn oysters and corn fritters may also take the place of meat. Coffee, tea, chocolate and milk are, of course, in summer as in winter, the breakfast beverages."
